İstanbul, Türkiye

Professional with a commitment and interest in software. After working more than 3 years of e-commerce experience decided to use my skills and interest in software. I excel at problem solving, prosper in fast-paced workplaces, and am constantly willing to learn new things. Known for effective time management and taking a proactive approach to problems. I am eager to contribute my expertise and passion in software industry. Due to my school, I can freely work at least 3 days in office.

EDUCATION

Üsküdar University
Software Engineering
3. Year Student (2020 - ...)

Relevant Modules: Database Management Systems, Software Validation and Testing, Object Oriented Programming, Programming with Python, Software Design and Architecture, Software Construction etc.

WORK EXPERIENCE

AVASYA TEKNOLOJİ
Product Manager

05.2023-...

- Signed a partnership with Bilkom, one of the Türkiye's largest distributors, for Segway Türkiye.
- Built the required e-commerce sites such as Amazon, Hepsiburada, Trendyol, N11, PttAvm, Teknosa, Pazarama etc.
- Managed, optimized and making the product ready for sale which includes filling the product descriptions, uploading images, pricing with the price given us from the distributor.
- Discussing with distributors about ads, checking every possibility and deciding which we should choose and if we don't have enough products, talk with distributors about delivery of the products.
- Mastered the e-commerce ads, commissions, offers, special deals, special day promos, order tracking, shipment details, making an order from distributor etc.
- Implemented targeted promotional campaigns, including email marketing and social media initiatives, to drive customer engagement and boost sales during peak seasons.

- Stok management and Pricing the products we have in our stock and our website.
- Thus, this helped me to develop vendor relationships in industry.

SENTEZ YAZILIM

Software Engineering Internship

08.2023-10.2023

- Sentez is a software company which develop programmes and databases for companies in different businesses highly in textile but in other businesses such as food, restaurants etc.
- In my one-month intern, I worked on SQL and C++ with our software.
- We communicated to the customers and fix their problem if they have with my intern co-worker friends.
- We did manage to do all the task given to us with teamwork and division of labour.
- The internship helped me about improving my teamwork ability and influenced my approach to collaborative projects.

AVASYA TEKNOLOJİ

Product Manager Assistant

05.2021-11.2022

- Managed and optimized product listings on various e-commerce platforms, ensuring accurate and compelling product descriptions, images, and pricing information.
- Collaborated with cross-functional teams, including marketing, logistics, and customer service, to streamline processes and enhance the overall customer experience.
- Established and maintained strong relationships with key e-commerce partners and distributors, negotiating favorable terms and resolving issues promptly to ensure smooth operations.
- Discussing with distributors about ads, checking every possibility and deciding which we should choose and if we don't have enough products, talk with distributors about delivery of the products.
- Making plans with our team members, making sale plan, work up for the upcoming special day-events.
